

POWERVAR releases the Mobile Power Manager (MPM) at the upcoming HIMSS '12 (Healthcare Information and Management Systems Society) Annual Conference

POWERVAR introduces new mobile power technology at the upcoming HIMSS '12 Annual Conference. The Mobile Power Manager (MPM) is a UL 60601 listed power supply which can handle multiple battery chemistries and is outfitted with proprietary management software which allows facilities to monitor mobile cart usage.

The Mobile Power Manager Features include:

- . Industry Standard Footprint
- . Customizable
- . UL 60601 Listed
- . Price Competitive
- . Fleet Management Software

"The Mobile Power Manager is a design extension of our medical grade UPM Series." states Tom Gornick, POWERVAR's Vice President of Sales. "Customers in the healthcare industry have requested a standard UL 60601 listed AC power supply which can be customized, supports multiple battery chemistries and is priced competitively. Our MPM system meets all of these industry demands."

POWERVAR will be releasing the Mobile Power Manager and other mobile medical power batteries solutions at the HIMSS '12 Annual Conference & Exhibition at the Sands Expo Center in Las Vegas from February 21st-23rd. Booth #6055.

About POWERVAR

POWERVAR (<http://www.powervar.com>) is a global provider of power management systems, headquartered in Waukegan, Illinois, with international sales and service offices in United Kingdom, Canada, Germany and Mexico. The company's primary products include transformer-based power conditioners and uninterruptible power supplies (UPS), which support a plethora of diverse vertical markets.
