## **AMETEK POWERVAR OPENS NEW MANUFACTURING FACILITY IN NORTH CAROLINA**

WAUKEGAN, IL, July 12, 2018 – [AMETEK Powervar](http://www.powervar.com), a leading supplier of power conditioning and uninterruptible power supply (UPS) solutions, has opened a new manufacturing facility in Knightdale, North Carolina. The new facility expands the company’s US manufacturing and distribution in the southern and eastern United States and allows it to enhance service to its growing customer base.

“Growth is not by chance; it is the result of an immense amount of teamwork,” states Chris Walsh, AMETEK Powervar’s Director of Sales and Marketing. “I am proud to be a part of the Powervar team as we expand our manufacturing footprint to better support our customers.”

The primary operations at the North Carolina location include the manufacture and shipment of Powervar’s GTS Series, Sinergy III, and Security Plus UPS products. The North Carolina location is being operated by existing AMETEK Powervar staff to ensure a consistent customer experience between its Waukegan, IL, location and this new facility. The company is pleased to provide the benefit of this localization to its growing customer base in the southern and eastern United States.

AMETEK Powervar’s Waukegan, IL facility will continue to serve as the company’s headquarters providing sales, customer service, engineering and service to its global account base. It also will continue to manufacture and ship its core power conditioning, three-phase UPS products, and specialized product lines from this location.

### **About AMETEK Powervar**
